The Augusta Dispatch says that the Bank of Fulton has just published a statement of its condition in accordance with the requisition of the Governor. It makes a good showing, and is evidently winning its way to popular favor.

There is a maiden lady in Conneticut who is so modest, that she turned away her washerwoman because she put her clothes in the same tub with those of a young man.

Being a little surprised at this, we looked again, and found in another section it still belonged to the old fourth.

Now, we would like to know where Putnam is. Can any of our law makers who said amen to the reading of the new Code, tell us?
